CEC - The Co-ordinating European Council

CEC is an organisation that represents the motor, oil, petroleum additive and allied industries for performance tests.

We develop test methods to evaluate the performance of transportation fuels, lubricants and other fluids.

CEC test methods are used extensively in Europe, and widely throughout the world.

To purchase CEC test methods click on 'Test Methods for Sale',

To find out more about our working groups that develop and utilise performance tests, please click on 'Contact Us'.

CEC Secretariat Services are provided by:
